

Security Management System *Models SPWM30G, SPWM20G & SPPRM30G* *Panasonic Parapet, Gooseneck and Wall Mounts*

Overview

For parapet mounting situations, the SPPRM30G offers ease of installation and service. It's designed to be used on either inside or outside rooftop parapets, and a 1 1/2" pipe thread allows quick and easy mounting of SWV-CW964.

An extension piece is included, which features an access plug on the end for wire pulls and allows more flexibility in mounting. The design allows the dome to be swung back over the roof for servicing.

With its distinctive gooseneck design, the SPWM20G presents a sleek, aesthetically pleasing look. This wall mount will support the SWV-CW964 PTZ dome camera.
