

# Security Management System *Premier Software*

## Introduction

The Schlage Security Management System delivers a powerful, single source solution for integrating a facility's access-control technologies, digital video, and alarm monitoring systems. Four software levels are provided to meet your current security requirements and can expand to meet your growing business needs, while satisfying your budget constraints.

The Premier system is perfect for medium to large organizations. It supports an unlimited number of cardholders, readers and alarm points and gives you unparalleled flexibility. The Premier system also enables an organization to manage facility administration from any location and provides real-time monitoring and audit trails.
