

# Security Management System ***SELECT SOFTWARE***

## Overview

The Schlage Security Management System delivers a powerful, single source solution for integrating a facility's access-control technologies, digital video, and alarm monitoring systems. Four software levels are provided to meet your current security requirements and can expand to meet your growing business needs, while satisfying your budget constraints.

The Select system is ideal for small to medium sized organizations utilizing offline locks. It supports an unlimited number of cardholders and readers and gives you unparalleled flexibility. The Select system also enables an organization to design and create badges as well as associate video with offline locks.
